- Stephenville ETJ
- 1-Percent Flood Risk Zones (FEMA)
- Railroad

WORKING DRAFT

WORKING DRAFT - 2/2016
This map shows a working comparison of the existing MTP road alignments in yellow, and revised draft alignments that have been included to reflect - and to the extent possible avoid - known conflicts of homes, water features, slopes, and floodplain. They have also been re-aligned to better match current roadway infrastructure, existing rights-of-way and known property lines. **Alignments are subject to change through the public involvement process.**

Please note that alignments presented are defined at a planning level. As development occurs, the alignments may be further refined through the subdivision process.
